

We are a small market group of five stations that pride ourselves with the responsible programming we air. We have an outstanding record of decency and community service. The daunting task, cost, and logistics of recording our programming are so overwhelming and consuming, I don't even know where to start objecting to this proposal. If you must, please monitor the repeat offenders, but don't hold the majority of the good guys responsible for the ignorant actions of the few.

Greg Brady, Operations Manager, Lakes Radio
